

Earth-View Questionnaire

Last 4 digits of SS#

We think a serendipitous aspect of Earth-View has been the ongoing communication between and among teachers and the EV staff throughout the school year. If you will complete the table below, that will help us evaluate this component and determine how we can use it more productively.

Contacts since last summer's workshop

How many EV teachers you have contacted in between EV meetings?	How many e-mails have you exchanged with other EV teachers?	How many phone calls?	How many faxes?	Other? Specify

What were the major reasons for the contacts you documented above?

Estimate the number of contacts that you have had with project staff by filling in the table below: (Since last summer's workshop)

	Daniel	Karen	Stan	Dorothea	Others?
E-mails					
Phone Calls					
Faxes					
Other (Specify)					

What were the primary reasons for these contacts?

How do you think we might improve communications, better facilitate the sharing of resources, etc.? (Maybe a discussion forum accessible only to us?)
