Professional Development Assignment #1

Curriculum Vita

This assignment asks you to build a curriculum vita (CV). Similar to a resume, a CV gives a picture of your qualifications as an academic communication professional. It includes only those items relevant to establishing your credibility as a communication professional such as academic/professional accomplishments, academic preparation, papers/publications, and more.

An example of a curriculum vita can be found here:

And some relevant sites to visit include:

This assignment is graded (A) for successful submission of your CV, or (F) if you do not submit it.
